**TRAINING / EXAMINATION CANDIDATE CONSENT  
TO PARTICIPATE IN THE EVENT  
DURING THE COVID-19 PANDEMIC  
TES-IMS-FRM-047-00**

**Appendix B: Healthy Practices to Protect Yourself**

- The most common symptoms of COVID-19 are fever, tiredness, and dry cough. Some patients may have aches and pains, nasal congestion, runny nose, sore throat or diarrhoea. These symptoms are usually mild and begin gradually.
- Stay home if you feel unwell. If you have a fever, cough and difficulty breathing, seek medical attention and call in advance.
- Some people become infected but don't develop any symptoms and don't feel unwell. Most people recover from the disease without needing special treatment. So, it is important to wear suitable facemask.
- Try to reduce the use of the public transport or equipment.
- TES CANADA will place posters that encourage hand hygiene to help stop the spread at the entrance and in other workplace areas where they are likely to be seen.
- TES CANADA discourage handshaking – we encourage other noncontact methods of greeting.
- Practice social distancing by keeping at least six feet (2 meters) away from others
- Wash your hands often with soap and water for at least 20 seconds, especially after being in a public place, or after blowing your nose, coughing or sneezing. If soap and water are not readily available, use a hand sanitizer with at least 70% alcohol.
- The virus disappears at temperatures above 60 degrees Celsius, so it is best to use warm water (as much as possible) to wash your hands or clothes.
- Avoid touching your eyes, nose and mouth with unwashed hands.
- Avoid close contact with people who are sick.
- Cover your nose and mouth with a tissue when coughing or sneezing and throw the tissue away after use. If a tissue isn't available, cough or sneeze into your elbow or sleeve, not your hands.
- Clean and disinfect frequently touched surfaces daily. This includes tables, doorknobs, light switches, handles, desks, computers, phones, keyboards, sinks, toilets, faucets and countertops.

**After the Event**

I hereby confirmed that I fully understood the health & safety briefing as explained by TES CANADA personnel. I am satisfied with safety precautionary measures taken by the management of TES CANADA to make sure that the class room is properly sanitized as per National Standards and with sufficient hand hygiene for all.
