## EXPERIENCE

**Artin Co.**  
**2020 - Present**

**Senior Software Developer | Tehran, Iran**  
Image Processing development , Python api Developer. I deployed and setup and compute engine in Google Cloud Platform and develop some API switch the help of Django Rest Framework that Could manipulate image processing processes And AI team codes.

**Super Pipe International**  
**2019 - 2020**

**Senior Software Developer | Tehran, Iran**  
Developing Web Applications, I developed a website with the help of Python and Django Which branch of the company could get their Project's location from their mobile or tablet Browser and book the project for them self but There was something like geo-fence which Prevent other branch's marketing manager from Book the same project, It calculates es the Project distance with other project location And Also branch manager could see his/her marketing member's activities and approve or Deny the project. Odoo addons: I developed a plugin for Odoo ERP in which staff could book the company's Cars if the cars are available and the manager Could approve or deny their requests. Developing app for Android with ARCore

**Pars Dev Team**  
**2017 - 2019**

**Senior Software Developer | Tehran, Iran**  
Work as the team leader and python developer I developed an automation and online Shopping website for Farnam Publisher with the help of Django which could count number Of the words in side a MS word documents and PDF and calculates translation and edition Cost. I developed a web base application with the help of Django and Python that could Calculates RBI(Risk Base assessment) result Of Oil and gas piplines for Technico Co. I also developed CMS for project management Of Oil and Gas storage tanks for Technico Co.
